

IN THE CLAIMS

Please amend claims 1 and 2 by rewriting them as follows:

Sw
E1

1. (Currently Amended) A communication terminal comprising:

a display unit (14) which displays an original selection screen for selecting at least one of a plurality of options; and

display control means (11) which causes display of options in said display unit by division or scroll; and

a key for selecting an option not currently displayed in said display unit from the options to be selected;

said display control means causing, when an option not currently displayed has been selected, display of a screen associated with said selected option in said display unit and performing a display so as to include said selected option when displaying said original selection screen next.

D1

2. (Currently Amended) A communication terminal comprising:

a display unit (14) which displays an original selection screen for selecting at least one of a plurality of options; and

display control means (11) which causes display of options in said display unit by division or scroll; and

a key for selecting an option not currently displayed in said display unit from the options to be selected;

said display control means causing, when an option not currently displayed has been selected, display of a screen associated with said selected option in said display unit and causing display of information indicating said selected option when displaying said original selection screen next.
